TAKE A CLOSER LOOK

WELCOME TO THE FUTURE OF WINDOWS. WIDELINE IS ONE OF THE BEST KNOWN AND MOST TRUSTED WINDOW AND DOORS BRANDS IN AUSTRALIA. WE ARE PROUD OF OUR 50 YEAR AUSTRALIAN FAMILY OWNED HERITAGE AND OUR REPUTATION FOR PRODUCING ARCHITECTURAL PRODUCTS OF THE HIGHEST STANDARD.

Advanced technology, innovation and beauty; these are the hallmarks of the Wideline range of Paragon architectural windows and doors.

Using advanced manufacturing technology and innovative design solutions, Wideline creates doors and windows that meet the needs of discerning architects, builders and homeowners for attractive modern designs, energy efficiency and bush fire safety.

Design versatility and a range of quality accessories offer you the ultimate flexibility to create the look you want for your home.

Tested for safety, energy efficiency and quality, Wideline products are backed by a written 7 Year Guarantee.

FUNCTION VERSATILITY AND BEAUTY THAT LASTS

WIDELINE'S STYLISH PARAGON RANGE DELIVERS ARCHITECTURAL ELEGANCE, ENERGY EFFICIENCY AND ADVANCED DESIGN VERSATILITY SO YOU CAN CREATE A BIGGER PICTURE.

Our designers are especially mindful of the increasing need to conserve energy and offer variations that help control room temperature and minimise penetration of damaging UV rays and solar heat.

- Create doors up to three metres high with advanced design Paragon panels or take better advantage of stunning views with larger awnings and casement windows.
- Our innovative 100mm x 40mm main frame allows for more glazing options. Most designs can be glazed to 24mm or individually colonial glazed.

- Greater freedom to combine styles, accessories and glass options to achieve the perfect look. Bi-fold, hinged, sliding and stacker doors are made with matching aluminium extrusions for a uniform look.
- Designs are adaptable for projects that need solutions for bushfire hazards, extreme weather conditions, noise control, and energy efficiency.
- Wideline products are thoroughly tested and energy rated through an approved certified Australian Fenestration Rating Council (AFRC) Simulator.
- Designed and manufactured in Australia for Australian conditions. Crafted from the highest quality materials and supported by our 7 Year Guarantee.

AWNING AND CASEMENT WINDOWS

ARCHITECTURAL ELEGANCE, DESIGN FLEXIBILITY AND GREAT AESTHETIC APPEAL ARE THE 'BUILT IN' HALLMARKS OF OUR STUNNING RANGE OF AWNING AND CASEMENT WINDOWS

Awning windows are hinged at the top; and casement windows are hinged at one side. They are easy to operate, provide easily controlled ventilation and provide an elegant solution for large windows exposed to wind or rain.

Our versatile awning sash panels can also be manufactured up to a generous 2350mm high or 2400mm wide.

- Robust frames and full perimeter sash seals for inclement weather.
- Glazing options up to 24mm for noise control and energy efficiency.
- The ability to incorporate fixlites, highlites and transoms.
- Can be fitted with matching insect screens that don't hamper window operation.
- Large sashes come with multi-point locks for additional convenience.

DOUBLE HUNG WINDOWS

BRING THE COOL BREEZES IN WHILST ALLOWING HOT AIR TO ESCAPE THROUGH THE DOUBLE OPENING OF A STYLISH DOUBLE HUNG WINDOW.

Designed to be simple to use, our double hung window incorporates a unique balance mechanism that makes opening and closing the window a dream.

- Larger robust frame and interlocking sashes for added strength.
- Ability to incorporate fixlite, highlites and transoms for larger window expanses.
- Individually glazed decorative options include Federation, Tudor and Colonial bar patterns.

STRUT WINDOWS

AN ENTERTAINER'S DREAM! THE GAS STRUT AND ELECTRIC STRUT WINDOW BLEND STYLE WITH MAXIMUM VIEW AND ACCESS.

Unlike a bi-fold window when closed, the strut window has no vertical stiles to interrupt the view. And because the strut sash opens upward, there is no issue of stacking panels protruding outward.

- Glazing options up to 24mm for improved noise control and energy efficiency.
- Available with a sill or no sill option.
- Gas Strut includes an optional key lock system for added security.
- Electric Strut features automatic electric opening controls by wall switch or handheld remote controller option.

Custom Coast Building Services

FIXED WINDOWS

FIXED WINDOWS PROVIDE THE PERFECT FRAME FOR YOUR ULTIMATE VIEW. WITH A VARIETY OF OPTIONS AVAILABLE, NO VIEW IS TOO LARGE FOR THE WIDELINE RANGE OF FIXED PANE WINDOWS.

Paragon's fixed windows have robust frames and architectural lines allowing you to achieve a stylish look for your home and allow an abundance of natural light to stream in.

- Glazing options up to 24mm for improved noise control and energy efficiency.
- Sturdy 100mm & 150mm frame size options.
- 90° and 180° silicone joints.

SLIDING WINDOWS

SMOOTH, QUIET AND EXTREMELY EASY TO OPERATE. THE SLIDING WINDOW ALLOWS FOR LARGE OPENINGS ALLOWING MAXIMUM AIRFLOW AND LIGHT TO FLOOD INTO YOUR HOME

With a choice of two, three and four panel configurations, maximum air ventilation can be easily achieved. The robust frame offers strength in exposed areas such as multi-story buildings or those in cyclonic regions.

- Larger robust frame and interlocking mullions for added strength.
- Glazing options up to 24 mm (double glazing) offer superior noise control and energy efficiency.
- Fitted with full-perimeter sash seals for maximum weather protection whilst simultaneously reducing air filtration.

LOUVRE WINDOWS

STYLISH AND PRACTICAL, PARAGON LOUVRES GIVE YOU ULTIMATE CONTROL OVER LIGHT, VENTILATION AND PANORAMA.

Injection moulded clips provide a weather-tight, corrosion-free seal and quiet operation.

- Our sturdy aluminium frames come in an excellent range of modern colours and blade options including glass, western red cedar and aluminium.
- Integrated external screens can be added and won't interfere with operation.
- The electric louvre option features automatic electric opening controls by wall switch or App.

SASHLESS WINDOWS

CREATE A SLEEK MINIMALIST LOOK INSIDE YOUR HOME, OR FRAME THAT OUTDOOR VIEW WITH AN OPENABLE WINDOW THAT DOESN'T OBSTRUCT THE VIEW WITH THICK SASH COMPONENTS.

Enjoy uninterrupted views with window heights up to 4500mm and widths up to 1800mm.

- Available in a vertical or horizontal sliding sashless configuration.
- Multi-positional key locking at full or partly closed positions lets you secure your windows while partially open.

ARCHITECTURAL
ELEGANCE AND
DESIGN VERSATILITY
LETS YOU CREATE A
BIGGER PICTURE

SLIDING DOORS

PRACTICAL SOLUTIONS FOR BUSY HOMES. SLIDING DOORS OFFER BIG VIEWS, GENEROUS VENTILATION AND EASY OPERATION.

Wideline's sliding doors create 'space' by the better use of the available floor area. This means a wider opening for improved air flow and uninterrupted views.

The internal sliding panels also offer great security and area ideal for homes that may experience extreme weather exposure (such as coastal areas).

Durable, low maintenance, smooth and quiet to operate, they're ideal for a busy family home.

Features include:

- Robust 150mm frame.
- Self-draining sills and quality seals.
- Toughened glass and a safety motif.
- Available in 2, 3 and 4 panel configurations.
- Matching insect and security screens available.
- Double glazing up to 24mm.
- Architectural hardware options.

Kyal & Kara

STACKER DOORS

BRING AUSTRALIA'S GREAT OUTDOORS IN WITH PARAGON'S SLEEK, EXPANSIVE, FULLY SCREENABLE STACKER DOORS.

Sliding stacker doors help you create new and exciting outdoor/indoor spaces.

As you'd expect Wideline have thought ahead – the sliding door outer frame design matches with Paragon's sliding doors. This simple consideration helps you achieve a uniform look when using both sliding and stacker doors.

Wideline stacker doors are built tough for Australian conditions, are easy to maintain, and have a tough 300Pa water-rated frame (150mm deep).

Completely open up a space with a cavity stacking door. These doors are cleverly concealed within the wall cavity when open. Paragon cavity stacking doors can stack 3 to 5 panels per side into the door cavity.

- Double-beaded door panels can be glazed up to 24mm for energy efficiency or noise reduction, and onsite glazing is available.
- Multiple options for height, width, and panel designs, let you create openings up to 4 meters wide.
- Architectural hardware options.
- Decorative options including colonial bars available.
- Can be configured as 90-degree corner opening doors, without a post.

Wincrest Bespoke

BI-FOLD DOORS

DESIGN AND TECHNOLOGY ENSURES WIDELINE'S PARAGON RANGE OF BI-FOLD DOORS DELIVER BIGGER VIEWS, MORE SPACE, DURABILITY AND WILL STAND THE TEST OF TIME.

Take a closer look at how much more enjoyable and flexible a room becomes with Paragon bi-fold doors. Multiple panel configurations provide an array of design opportunities for large screened spaces.

With your choice of inward and outward opening doors, there are few limitations to designing an area.

Design features:

- Top hung for durability and ease of operation.
- Full perimeter seals reduce noise and stop drafts.
- Unique sill insert reduces roller wear and noise.
- Marine grade (316) stainless steel hinges and fittings.
- Tested for water resistance.
- Double beaded door panels can be glazed to 24mm and sill can be recessed into floor.

HINGED DOORS

CREATE THE PERFECT LOOK FOR YOUR SPACE,
LEADING OUT TO THE PATIO OR DECK.

Paragon hinged doors can be configured in single or double French door style configurations.

- High-quality full perimeter seals ensure superior weather protection and greatly minimises air infiltration. An important consideration for air-conditioned homes.
- Customise by adding overhead highlights or sidelite panels.
- Glazing options up to 24mm for improved noise control and energy efficiency.

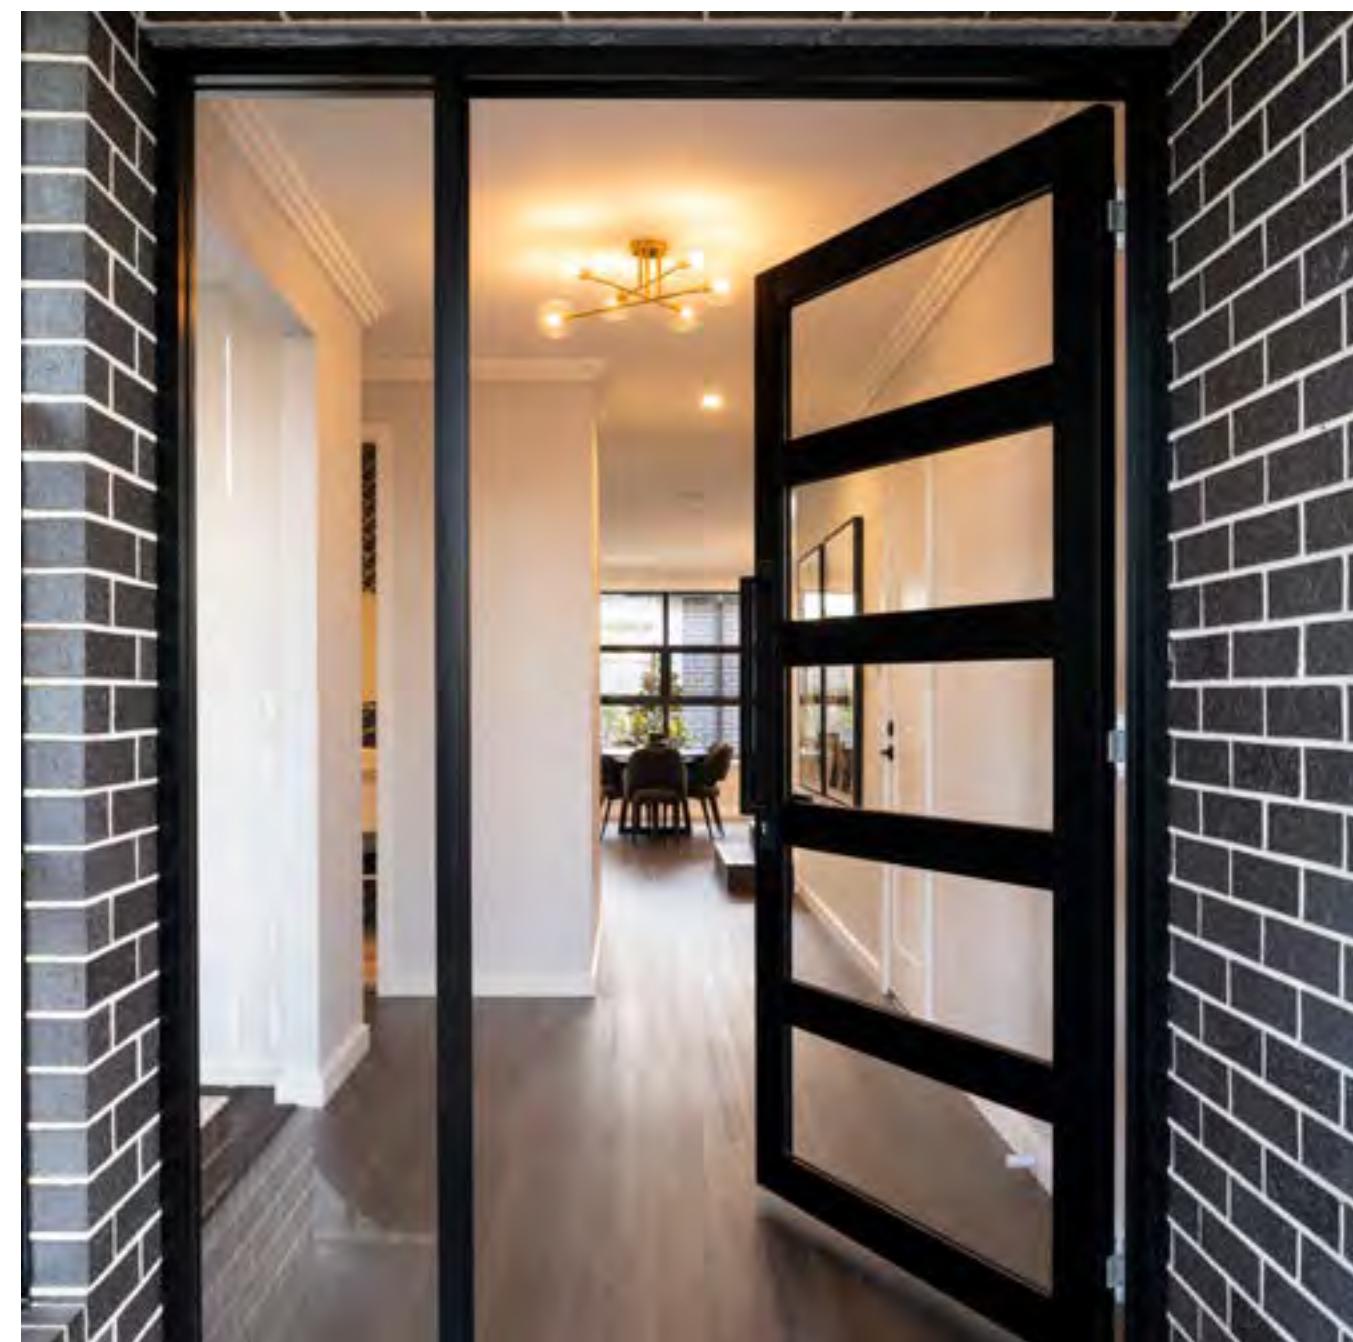

ENTRY DOORS

VERSATILITY MAKES A GRAND ENTRANCE.
PARAGON FRONT ENTRY DOORS CREATE A
WELCOMING, SECURE AND PRACTICAL ENTRANCE
FOR YOUR HOME.

Select from a range of designs and customisation options, including materials, colours and hardware. Choose a standard stile or wide stile, or Atrium Entry Door for added grandeur.

- Incorporates full perimeter seals providing excellent weather protection.
- A wide variety of locksets are available in popular powdercoat colours, chrome, stainless steel or satin chrome
- Tailor with highlites, sidelites, decorative bars or chair rails or different glass options.

MATCHING ACCESSORIES AND FITTINGS

THE PARAGON ARCHITECTURAL RANGE COMES COMPLETE WITH A COMPREHENSIVE SELECTION OF A STYLISH ACCESSORIES.

Decorative options

- Add a finishing touch with Colonial or Federation bars.
- Couplers allow complex product combinations in the Paragon range.
- Colour matching and creation service.
- Hardware finishing options from powder coating to satin chrome and stainless steel.

Options for energy efficiency, comfort, safety, security or noise reduction

- Matching insect, safety and security screens are available.
- Range of glazing options up to 24mm.
- Excellent range of lock options for added style and security.
- Superior safety-compliant options for bushfire prone areas.

7 YEAR GUARANTEE

CONDITIONS

YOUR WIDELINE WINDOWS & DOORS ("WL") PRODUCTS ARE GUARANTEED AGAINST DEFECTS ARISING FROM FAULTY WORKMANSHIP OR MATERIALS FOR A PERIOD OF SEVEN (7) YEARS FROM THE DATE OF DELIVERY BY BGW, SUBJECT TO THE FOLLOWING CONDITIONS:

- | | | |
|---|---|--|
| <p>a. The product has been installed in accordance with the relevant Australian Standards and recognised building practices.</p> <p>b. The product has been maintained in accordance with industry recommendations.</p> <p>c. The product has not been subject to misuse, physical abuse, or neglect.</p> <p>d. Manufacturing standards and tolerances are not deemed defects, nor are industry variations in the colour of aluminium and timber componentry.</p> <p>e. WL accepts no responsibility for glass breakage (except for faulty workmanship or materials). Wire reinforced glass, toughened glass, float glass, laminated glass and mirror glass is guaranteed against defects and degradation for a period of three (3) years.</p> | <p>f. Moving parts which wear out as a part of normal use are guaranteed for two (2) years.</p> <p>g. This guarantee is limited to the repair or replacement of the faulty product at the company's discretion but does not extend to the installation or refinishing of a replacement product.</p> <p>h. Finish failures or corrosion of aluminium or other components due to environmental conditions such as air pollutants, acid rain or other corrosive substances are defects which have arisen due to the conditions and are therefore not the responsibility of WL.</p> <p>i. Corrosion, wear, or failure of standard components in seacoast applications (within 5 kilometres of coastal waters) is not covered under this warranty as deterioration is possible under climate conditions.</p> | <p>j. Normal wear or discolouration of finishes including the tarnishing of brass is a result of conditions or applications and are therefore not the responsibility of WL.</p> <p>k. Only repairs carried out by WL personnel or authorised WL agents are covered by this guarantee.</p> <p>l. Claims under this guarantee should be made within one month of the defect arising in the product. Copies of documentation showing the purchase date of the product should be included with your written claim and forwarded to the WL office.</p> |
|---|---|--|

This guarantee is in addition to all other rights and remedies in respect of this product to which you are entitled under the Trade Practices Act and similar State and Territory laws. For the benefit of the consumer. Effective 1 August 2013.

BUILDERS/HOMEOWNERS, PLEASE NOTE

Windows and doors can be damaged by careless handling, and care should be taken to protect them from damage that could occur during the construction process.

During construction there are some precautions you should take to ensure that the windows and doors will retain their ex-factory condition until building work is complete and the job handed over.

REMEMBER

- Keep wet cement, mortar and brick-cleaning acid from contact with timber or aluminium (particularly if the finish is anodised), before, during and after installation.
- If accidentally splashed, wash off immediately with clean water otherwise permanent staining or damage may occur.
- Do not use acid to remove mortar stains on window frames.
- Hose down brickwork to remove residual

cleaning acid that may leach out and cause damage to the finish later.

- Keep the tracks of sliding windows and doors clear of sand and cement droppings.
- Do not use window or door frames to support planks or temporary scaffolding.
- Clean up when the job is complete with mild detergent and rinse with clean water.
- Door sill and frames are particularly vulnerable and must be protected from wheelbarrows and muddy/dirty boots. Mud, cement, render, etc. are very abrasive and can cause scratching and wear of the powdercoat surface.
- Acid used in cleaning brickwork can cause permanent damage to window and door surfaces. Particular care should be taken to protect windows and doors during cleaning operations and if exposure does occur, acid should be washed off immediately with ample fresh water.

All products shown in this catalogue are representative of what can be achieved and are subject to individual finishes and installation techniques. Wideline Pty Ltd reserves the right to modify sizes and details without notice. Wideline Pty Ltd does not accept liability for the appearance of your finished product.
